Progress in Cardiovascular Nursing
1999 Subject Index

Advance Directives
When, How, and Why of Advance Directives: Tools for the Cardiovascular Nurse 14;3:92

Analgesics
Prescription and Administration of Around the Clock Analgesics in Postoperative Pediatric Cardiovascular Surgery Patients 14;1:19

Angioplasty
Clinical Update: Is Aggressive Lipid Lowering as Effective as Angioplasty in Some Cardiac Patients 14;4:160

Anorexia Nervosa
EKG Clinical Questions: What is the Most Serious Complication for Patients With Anorexia Nervosa? 14;2:75

Apo (E) Gene
Clinical Update: Apo (E) Gene: Another Independent Risk Factor for Coronary Artery Disease 14;2:77

Arrhythmia
EKG Clinical Questions: What is the Most Common Arrhythmia Following Cardiac Revascularization? 14;4:159

Cardiac Surgery
Cerebral Vascular Accident After Cardiac Surgery: Its Impact on Nursing Care 14;2:48

Cardiovascular
Cardiovascular Effects of Acute Stroke 14;2:61
Nutritional Strategies in Cardiovascular Disease Control: An Update on Vitamins and Conditionally Essential Nutrients 14;4:124

Cerebral
Cerebral Vascular Accident After Cardiac Surgery: Its Impact on Nursing Care 14;2:48

Circulatory Assist Device
Keeping Pace: Impact of New UNOS Guidelines on Donor Heart Allocation to Circulatory Assist Device Patients 14;1:37

Coronary Artery
Clinical Update: Apo (E) Gene: Another Independent Risk Factor for Coronary Artery Disease 14;2:77
EKG Clinical Questions: Does Recording a Patient's ST Segment "Fingerprint" During Percutaneous Transluminal Coronary Angioplasty (PTCA) Help to Exclude Coronary Artery Reocclusion as the Cause of Transient Ischemia Following the Procedure? 14;3:115
Reliability and Validity of the Food Pyramid Self Efficacy Scale: Use in Coronary Artery Bypass Patients 14;4:130

Delay Experience
How Men and Women With Heart Disease Seek Care: The Delay Experience 14;2:53

Drug Therapy
Clinical Update: Genetically Engineered Drug Induces New Capillary Growth in the Ischemic Myocardium 14;1:35
Considerations in Drug Therapy: Drug Absorption in Congestive Heart Failure: Impact on Management 14;1:30, 14;2:72
Considerations in Drug Therapy; Effective Treatment of Severe Hypertension 14;4:?150

ECG
Learning How to Perform a 12 Lead ECG Using Virtual Reality 14;1:7

EKG
EKG Clinical Questions: Could Inaccurate Lead Placement Cause Misdiagnosis of the Culprit Artery in Patients With Acute Myocardial Infarction? 14;1:33
EKG Clinical Questions: What is the Most Serious Complication for Patients With Anorexia Nervosa? 14;2:75

Food Pyramid Self Efficacy Scale
Reliability and Validity of the Food Pyramid Self Efficacy Scale: Use in Coronary Artery Bypass Patients 14;4:130

Heart Disease
How Men and Women With Heart Disease Seek Care: The Delay Experience 14;2:53

Heart Failure
Considerations in Drug Therapy: Drug Absorption in Congestive Heart Failure: Impact on Management 14;1:30, 14;2;72
Considerations in Drug Therapy: Update on the Treatment of Heart Failure 14;3:111
Heart Failure: Living With Uncertainty 14;3:85
Perceptions of Physical Fitness in Patients With Heart Failure 14;3:97

Hypertension
Considerations in Drug Therapy: Effective Treatment of Severe Hypertension 14;4:150
Keeping Pace: New Guidelines for the Management of Hypertension: Latest Perspective on an Old Problem 14;4:153

International
International Perspectives in CV Nursing: Progress in Cardiovascular Nursing Goes International! 14;3:114
International Perspectives in CV Nursing: The Working Group on Cardiovascular Nursing: A European Forum for International Collaboration in Cardiac Care 14;4:156

Ischemia
EKG Clinical Questions: Does Recording a Patient's ST Segment "Fingerprint" During Percutaneous Transluminal Coronary Angioplasty (PTCA) Help to Exclude Coronary Artery Reocclusion as the Cause of Transient Ischemia Following the Procedure? 14;3:115

Lipid Lowering
Clinical Update: Is Aggressive Lipid Lowering as Effective as Angioplasty in Some Cardiac Patients 14;4:160

Myocardial Infarction
Clinical Update: Myocardial Infarction: Twice as Likely to Kill Women Under 50 Years of Age 14;3:117
EKG Clinical Questions: Could Inaccurate Lead Placement Cause Misdiagnosis of the Culprit Artery in Patients With Acute Myocardial Infarction?14;1:33

Myocardium
Clinical Update: Genetically Engineered Drug Induces New Capillary Growth in the Ischemic Myocardium 14;1:35

Nursing Care
Cerebral Vascular Accident After Cardiac Surgery: Its Impact on Nursing Care 14;2:48

Ischemia
EKG Clinical Questions: Does Recording a Patient's ST Segment "Fingerprint" During Percutaneous Transluminal Coronary Angioplasty (PTCA) Help to Exclude Coronary Artery Reocclusion as the Cause of Transient Ischemia Following the Procedure? 14;3:115

Lipid Lowering
Clinical Update: Is Aggressive Lipid Lowering as Effective as Angioplasty in Some Cardiac Patients 14;4:160

Myocardial Infarction
Clinical Update: Myocardial Infarction: Twice as Likely to Kill Women Under 50 Years of Age 14;3:117
EKG Clinical Questions: Could Inaccurate Lead Placement Cause Misdiagnosis of the Culprit Artery in Patients With Acute Myocardial Infarction?14;1:33

Myocardium
Clinical Update: Genetically Engineered Drug Induces New Capillary Growth in the Ischemic Myocardium 14;1:35

Nursing Care
Cerebral Vascular Accident After Cardiac Surgery: Its Impact on Nursing Care 14;2:48

Nursing Research
Heart Center Nursing Research: A Team Effort 14;1:25

Nutrition
Nutritional Strategies in Cardiovascular Disease Control: An Update on Vitamins and Conditionally Essential Nutrients 14;4:124

Patient Care
The Thread That Links: Continuity of Patient Care 14;2:69

Pediatric
Prescription and Administration of Around the Clock Analgesics in Postoperative Pediatric Cardiovascular Surgery Patients 14;1:19

Perclose
Suppose a Perclose 14;4:136

Physical Fitness
Perceptions of Physical Fitness in Patients With Heart Failure 14;3:97

Programs
The Very Important Partner™ Program: Integrating Family and Friends Into the Healthcare Experience 14;3:103

Progressive Care Unit
Post Procedural Interventional Cardiology Patients on the Progressive Care Unit 14;1:14

PTCA
EKG Clinical Questions: Does Recording a Patient's ST Segment "Fingerprint" During Percutaneous Transluminal Coronary Angioplasty (PTCA) Help to Exclude Coronary Artery Reocclusion as the Cause of Transient Ischemia Following the Procedure? 14;3:115

Revascularization
EKG Clinical Questions: What is the Most Common Arrhythmia Following Cardiac Revascularization? 14;4:159
Focus On: Collaboration, Problem Solving, Reevaluation: Foundation for the Heart Center of Excellence 14;4:143

Stroke
Cardiovascular Effects of Acute Stroke 14;2:61

UNOS Guidelines
Keeping Pace: Impact of New UNOS Guidelines on Donor Heart Allocation to Circulatory Assist Device Patients 14;1:37

Vascular
Cerebral Vascular Accident After Cardiac Surgery: Its Impact on Nursing Care 14;2:48

Virtual Reality
Learning How to Perform a 12 Lead ECG Using Virtual Reality 14;1:7

Vitamins
Nutritional Strategies in Cardiovascular Disease Control: An Update on Vitamins and Conditionally Essential Nutrients 14;4:124

Working Group on CV Nursing
International Perspectives in CV Nursing: The Working Group on Cardiovascular Nursing: A European Forum for International Collaboration in Cardiac Care 14;4:156
